

Student Skill Portfolio Website

Project Development Report

Prepared by: Avinash Karale

Roll No: MCA2504029

Role: GitHub Manager & Contact Section Developer

TeamRoles

Member	Role	Branch	Responsibilities
Sidheshwar	Homepage Developer	home-page	Homepage, navigation, introduction
Parikshit	Profile Section Developer Projects	profile-section	Profile cards, skills, GitHub links Projects
Tejas	Section Developer	projects-section	section and project cards
Avinash	GitHub Manager & Contact Section Developer	contact-section	Repository, collaborators, branches, PR review, merges, deployment, contact form

Project Objectives

The main objectives of this project were:

- Develop a responsive student portfolio website.
- Learn collaborative software development.
- Gain practical experience with Git and GitHub.
- Implement feature branching and version control.
- Practice Pull Requests and code reviews.
- Improve teamwork and communication.
- Deploy the final project using GitHub Pages.

Project Overview

The website consists of four major sections:

- Homepage
- Student Profiles
- Projects
- Contact

Each section was developed independently by a team member using a separate Git branch. After development, the GitHub Manager reviewed and merged all contributions into the main branch.

Technologies Used

Frontend

- HTML5
- CSS3
- JavaScript

Version Control

Git
GitHub

-
-

Deployment

- GitHub Pages

Git & GitHub Workflow

The project followed an industry-standard Git workflow.

Step 1

Create Repository

Step 2

Clone Repository

```
git clone https://github.com/Pravin-junne/student-portfolio.git
```

Step 3

Create Feature Branch

Example

```
git checkout -b home-page
```

```
git checkout -b profile-section
```

```
git checkout -b projects-section
```

```
git checkout -b contact-section
```

Step 4

Develop Feature

Each student completed their assigned module independently.

Step 5

Commit Changes

```
git add .
```

```
git commit -m "Completed Homepage"
```

Step 6

Push Branch

```
git push origin home-page
```

Step 7

Create Pull Request

Each member created a Pull Request on GitHub.

Step 8

Review Pull Request

The GitHub Manager reviewed all submitted Pull Requests.

Step 9

Merge Pull Request

Approved Pull Requests were merged into the **main** branch.

Step 10

Deploy

The final website was deployed using GitHub Pages.

Branching Strategy

main

Team Roles and Responsibilities

Student 1 – Sidheshwar(Hompage Developer)

Branch: `home-page`

Responsibilities:

- Designed the homepage.
- Created the navigation bar.
- Added website title.
- Added introduction section.
- Submitted Pull Request.

Student 2 – Parikshit (Profile Section Developer)

Branch: `profile-section`

Responsibilities:

- Created profile cards.
- Added student names.
- Added skills.
- Added GitHub profile links.
- Submitted Pull Request.

Student 3 – Tejas (Projects Section Developer)

Branch: `projects-section`

Responsibilities:

- Developed Projects section.
- Added three project cards.
- Added project descriptions.
- Mentioned technologies used.
- Submitted Pull Request.

Student 4 – Avinash (GitHub Manager & Contact Section Developer)

Branch: `contact-section`

Responsibilities:

GitHub Management

- Created GitHub repository.
- Added collaborators.
- Managed branches.
- Reviewed Pull Requests.
- Merged all approved Pull Requests.
- Maintained repository.

Website Development

- Built Contact section.
- Added Email field.
- Added Message field.
- Added Submit button.

Deployment

- Published website using GitHub Pages.
- Verified live deployment.

Conclusion

The Student Skill Portfolio Website project successfully demonstrated collaborative software development using Git and GitHub. By dividing the project into separate modules and following a structured branching strategy, the team was able to work efficiently and integrate all features through Pull Requests. The project strengthened our understanding of version control, collaborative development, responsive web design, and deployment using GitHub Pages. Overall, it provided valuable practical experience that reflects real-world software development practices.

Screenshots

Homepage:

Register and Log-in

A registration form titled "Student Registration" with the subtitle "Create your college account". The form is set against a blue background and contains five input fields: "Full Name" (with a person icon), "Roll Number" (with a document icon), "Email Address" (with an envelope icon), "Password" (with a lock icon and a toggle eye icon), and "Course" (with a document icon).

Contact Section:

The "Contact Section" of the "Student Skill Portfolio" website. It features a dark blue header with the site name and navigation links. The main content area has a blue background with the heading "Let's Connect" and a subtext "Questions, Ideas or feedback? We'd love to hear from you." On the left, there are three contact details: Email (skillportfolio@gmail.com), Phone (+91 98765 43210), and Location (India). On the right, there is a contact form with fields for "Full Name", "Email Address", "Subject", and a "Write your message..." text area, followed by a "Send Message" button. The footer contains a copyright notice: "© 2020 Student Skill Portfolio | Developed by Syntax Terrorists. All Rights Reserved."
